MODERN MIX

The Bailey Chesterfield sofa features the classic couch's distinctive deep-buttoned design and some subtle updates for a more contemporary appeal. "The armrests of this sofa are a bit slimmer and sleeker than the traditional Chesterfield sofa; it also sports a brass-finish base that contributes to its modern look," says Boh.

ADD TO CART

Wheel in freshly prepared cocktails to serve your guests with chic finds such as the Liam bar cart. Featuring an elegant angular form and a sleek metal frame, the two-tiered trolley is available in a black or transparent finish for the glass top.

RAISE YOUR GLASS

Pair your bar counter with stylish chairs that combine form and function. Top picks include the Morino bar chair, which features a striking metal frame and can be upholstered in leather, velvet or other textured fabrics.

GOLDEN AGE

Store your bottles and elegant glassware in the Barille Mini sideboard, which features a geometric design inspired by the art deco movement. "The geometric design on the doors reminds one of the glamorous speakeasy bars of Paris and New York," says Boh.

Be Our Guest

Create a stylish home bar with the right mix of furnishings from Snow Globe

For homeowners who enjoy hosting friends for drinks in their abode, their liquor collection is a source of pride and joy—and a chic bar area in your home is a wonderful way to complete the experience.

"The key practical elements for a home bar are: good storage for your bottles and barware, a counter to prepare drinks and finally, stylish furnishings for you to host your guests," says Juliana Boh, founder of furniture retailer Snow Globe.

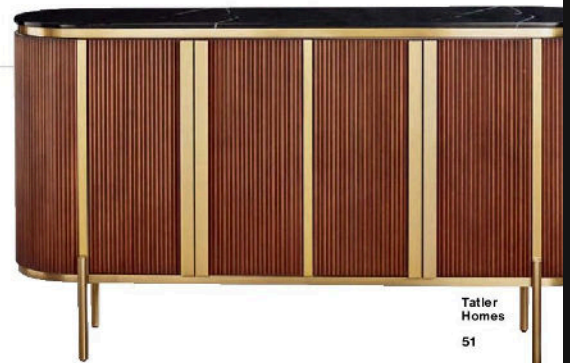

She recommends taking a cue from gentlemen's clubs, which typically feature a dark colour

palette and an exquisite mix of materials. "The look of gentlemen's clubs is all about luxury, refinement and craftsmanship. You can achieve this masculine look with furnishings in dark polished wood, as well as leather and brass." Here, she picks out some suitable pieces to consider.

HIDE AND SEEK

Another stylish option is the Heather Mahogany sideboard, which features metal trimmings, fluted panels and a marble top. "The cultured marble top can be used as a countertop as it is water-resistant, unlike natural marble," adds Boh.
